BOIL WATER ADVISORY

TO

Clarendon County

05-28-2024

Clarendon County advises the residents of the Lake Marion Shores to vigorously boil water for at one (1) full minute prior to drinking or cooking.

A line break in the water system has resulted in a loss of service to Lake Marion Shores. There has not been confirmed contamination of the system. However, because of the loss of pressure, customers are advised to vigorously boil their water for at least one (1) full minute prior to drinking or cooking until otherwise notified by Clarendon County. Also, any ice made from the water that has not been boiled should not be used for drinking purposes.

We are presently working to correct the problem as quickly as possible. Should you have any questions concerning this Advisory, please call 803-553-5939.

Thank you for your cooperation and patience while we rectify this issue.
